

CHR 360 - Health Passport

Centelligence™ Health Record 360

CHR 360 is a web-based, secure health information tool built using core clinical and claims data to deliver relevant healthcare information when and where it is needed for Apple Health Core Connections members.

WHAT ARE THE BENEFITS?

CHR 360 helps providers improve care coordination, eliminate waste and reduce errors. It also provides a Member's medical history and health interactions as the person progresses through the clinical process.

CHR 360:

- *Improves care coordination by connecting authorized providers with health information from various facilities.*
- *Allows Providers to monitor compliance with prescription regimens.*
- *Reduces duplicate diagnostic tests.*

KEY FEATURES

Face Sheet: View an easy-to-read patient summary

Allergies: View, add or modify allergies at the point-of-care.

Assessments: Document forms directly online.

Growth Chart: Chart growth of infants and children at point-of-care.
