

Improve Your Immunization Rates

Why run Immunization Coverage Rate Reports?

Because knowledge is power! When you know your immunization rates, you have the power and information to make them better. Providers who run Immunization Coverage Rate Reports using the Washington State Immunization Information System can easily see how many of their school-age and adolescent patients are up-to-date on vaccines.

Once you know where improvement is needed, you can begin your recall and scheduling process. This encourages those patients to come in, leading to better coverage rates and a healthier community!

See instructions on the back—know where you stand and find out your coverage rates

Find out your rates today! See the reverse side of this flyer for simple instructions on how to run the Coverage Rate Report in the Immunization Information System.

Learn more about best practices at:
www.doh.wa.gov/immunizewa

Improve your immunization coverage rates to:

- Help your practice and Washington State meet national immunization goals:
 - 90% coverage for young children
 - 80% coverage for teens
- Reduce the spread of vaccine-preventable diseases and keep our communities safe!

How do I run the Coverage Rate Report in the Washington State Immunization Information System?

1. Log in to www.waiis.wa.gov using your username and password.

NOTE: If you do not have a username or password, please contact the IIS Help Desk at 1-800-325-5599

2. Under the left navigation Reports Menu heading, select **Report Module**.

3. Under the Registry heading, select the **Coverage Rate Report**.

4. Select **"By Ownership"** to include your patients only.

5. Select the vaccine **Series** to run and the **Age Range** to run it for.

6. Select **"Active Only"** under Patient Status

7. You may limit the report by any of the criteria listed as needed, including Complete by Vaccine and Series Complete.

8. Click the **Create Coverage Report** button.

Criteria for Immunize WA Nominations:

Childhood
Series – 4313314
Age – From 24 Months Through 35 Months
As of Date - 12/31/2014
Adolescent
Series – Adolescent Series 332211
Age – From 13 Years Through 17 Years
As of Date - 12/31/2014

Coverage Rate Report Sample

Aggregate (Total Only)	Total Patients	Completion By Vaccine					One Dose to Complete Series	One Visit to Complete Series	Series Complete
		TDAP (≤1)	MENINGOCOCCAL (≤1)	HPV (≤3)	Incomplete Series				
TOTAL	286	210 (73%)	196 (69%)	25 (9%)	261 (91%)	33 (12%)	37 (13%)	25 (9%)
