

HEDIS FEEDBACK, 2018

Thanks to the hard work and participation of great providers like you, the 2018 HEDIS* hybrid season was a success! The majority of HEDIS measurements are derived from administrative (claims) results, but some are abstracted from the medical record review process during HEDIS season (annually, March through May). After reviewing almost 3,000 charts this season, we found some trends we'd like to share with you. Identifying opportunities for improvement will ensure we have an even more successful season in 2019!

TOPIC: Well-Child Examinations

- Remember to Include BMI in vitals (this includes **percentile for all members aged ≤ 19**) and calculate percentile if your EMR does not do this automatically. For members less than 19, you can use dated growth/BMI charts for this documentation.
- Remember to document all the work you are doing (such as Anticipatory Guidance, "AG"), as well as any specific educational/guidance handouts provided. For AG, be sure to name what content is delivered and especially call out "nutrition" and "physical activity" discussion/materials when included.
- Take advantage of your EMR: When possible, preload standardized templates, phrases, or check boxes. Try to build care gap "alerts" and automatic BMI percentile calculation in your system.
- Well child/adolescent visits (≤ 21) include 5 components: Documentation must include all five components for the record to be compliant with the measure.
 - **Health history**
 - **Physical development history**
 - **Mental development history**
 - **Complete physical exam**
 - **Health education/anticipatory guidance**
- Remember to fully document **which** vaccine was used by **name**.
 - E.g., 2 vs 3-series dosage (Rotarix vs RotaTeq); generic "rotavirus" or "OPV/IPV" are noncompliant.
- For our Foster Care members, be sure to list **any** name used for member within the chart; sometimes members are in the process of adoption and ProviderOne name has yet to be changed.

For questions about HEDIS, please visit our provider website at <https://www.coordinatedcarehealth.com/providers.html>. Under "QI Program" on the left, you will find "2018 HEDIS Guides" located here: <https://www.coordinatedcarehealth.com/content/dam/centene/Coordinated%20Care/provider/PDFs/QI/508-WA-HEDIS-QuickRefGuide.pdf> or visit www.ncqa.org for additional information regarding HEDIS.
