Clinical Policy: Quinine Sulfate (Qualaquin)
Reference Number: CP.PCH.10
Effective Date: 12.01.18
Last Review Date: 05.20
Line of Business: Commercial, HIM

See Important Reminder at the end of this policy for important regulatory and legal information.

Description
Quinine sulfate (Qualaquin®) is an antimalarial drug.

FDA Approved Indication(s)
Qualaquin is indicated for treatment of uncomplicated Plasmodium falciparum malaria.

Quinine sulfate has been shown to be effective in geographical regions where resistance to chloroquine has been documented.

Limitation(s) of use: Qualaquin is not approved for:
• Treatment of severe or complicated P. falciparum malaria
• Prevention of malaria
• Treatment or prevention of nocturnal leg cramps

Policy/Criteria
Provider must submit documentation (such as office chart notes, lab results or other clinical information) supporting that member has met all approval criteria.

It is the policy of health plans affiliated with Centene Corporation® that Qualaquin is medically necessary when the following criteria are met:

I. Initial Approval Criteria
A. Malaria (must meet all):
   1. Diagnosis of one of the following (a or b):
      a. Uncomplicated Plasmodium falciparum malaria;
      b. Plasmodium vivax malaria (off-label);
   2. Failure of a formulary antimalarial agent (e.g., atovaquone-proguanil, Coartem®, chloroquine, hydroxychloroquine, mefloquine), unless clinically significant adverse effects are experienced, all are contraindicated, or the causative species is resistant to all formulary antimalarial agents;
   3. Dose does not exceed 1,944 mg (6 capsules) per day.
   Approval duration: 7 days

B. Babesiosis (off-label) (must meet all):
   1. Diagnosis of babesiosis;
   2. Dose does not exceed 1,944 mg (6 capsules) per day.
   Approval duration: Duration of request or 10 days (whichever is less)
C. Other diagnoses/indications
   1. Refer to the off-label use policy for the relevant line of business if diagnosis is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized): CP.CPA.09 for commercial and HIM.PHAR.21 for health insurance marketplace.

II. Continued Therapy
   A. Malaria or Babesiosis (off-label)
      1. Re-authorization is not permitted. Member must meet the initial approval criteria.
         Approval duration: Not applicable
   
   B. Other diagnoses/indications (must meet 1 or 2):
      1. Currently receiving medication via Centene benefit and documentation supports positive response to therapy.
         Approval duration: Duration of request or 7 days (whichever is less); or
      2. Refer to the off-label use policy for the relevant line of business if diagnosis is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized): CP.CPA.09 for commercial and HIM.PHAR.21 for health insurance marketplace.

III. Diagnoses/Indications for which coverage is NOT authorized:
   A. Non-FDA approved indications, which are not addressed in this policy, unless there is sufficient documentation of efficacy and safety according to the off label use policy – CP.CPA.09 for commercial and HIM.PHAR.21 for health insurance marketplace or evidence of coverage documents;
   B. Prevention of malaria;
   C. Treatment or prevention of nocturnal leg cramps.

IV. Appendices/General Information
   Appendix A: Abbreviation/Acronym Key
   CDC: Centers for Disease Control and Prevention
   FDA: Food and Drug Administration
   G6PD: glucose-6-phosphate dehydrogenase
   HUS/TTP: hemolytic uremic syndrome/thrombotic thrombocytopenic purpura

   Appendix B: Therapeutic Alternatives
   This table provides a listing of preferred alternative therapy recommended in the approval criteria. The drugs listed here may not be a formulary agent for all relevant lines of business and may require prior authorization.

</table>

Therapeutic alternatives are listed as Brand name® (generic) when the drug is available by brand name only and generic (Brand name®) when the drug is available by both brand and generic.

**Appendix C: Contraindications/Boxed Warnings**

- Contraindication(s):
  - Prolongation of QT interval
  - Glucose-6-phosphate dehydrogenase (G6PD) deficiency
  - Myasthenia gravis
  - Known hypersensitivity to quinine, mefloquine, or quinidine
  - Optic neuritis

- Boxed warning(s): Qualaquin use for the treatment or prevention of nocturnal leg cramps may result in serious and life-threatening hematologic reactions, including thrombocytopenia and hemolytic uremic syndrome/thrombotic thrombocytopenic purpura (HUS/TTP). Chronic renal impairment associated with the development of TTP has been reported. The risk associated with Qualaquin use in the absence of evidence of its effectiveness in the treatment or prevention of nocturnal leg cramps outweighs any potential benefit.

**Appendix D: General Information**

- For more information on the treatment of malaria, refer to the CDC website: [https://www.cdc.gov/malaria/resources/pdf/treatment_guidelines_101819.pdf](https://www.cdc.gov/malaria/resources/pdf/treatment_guidelines_101819.pdf)
- For more information on the treatment of babesiosis, refer to the CDC website: [https://www.cdc.gov/parasites/babesiosis/health_professionals/index.html](https://www.cdc.gov/parasites/babesiosis/health_professionals/index.html).
## V. Dosage and Administration

<table>
<thead>
<tr>

**Important Reminder**

This clinical policy has been developed by appropriately experienced and licensed health care professionals based on a review and consideration of currently available generally accepted standards of medical practice; peer-reviewed medical literature; government agency/program approval status; evidence-based guidelines and positions of leading national health professional organizations; views of physicians practicing in relevant clinical areas affected by this clinical policy; and other available clinical information. The Health Plan makes no representations and accepts no liability with respect to the content of any external information used or relied upon in developing this clinical policy. This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved. “Health Plan” means a health plan that has adopted this clinical policy and that is operated or administered, in whole or in part, by Centene Management Company, LLC, or any of such health plan’s affiliates, as applicable.

The purpose of this clinical policy is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage decisions and the administration of benefits are subject to all terms, conditions, exclusions and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable Health Plan-level administrative policies and procedures.

This clinical policy is effective as of the date determined by the Health Plan. The date of posting may not be the effective date of this clinical policy. This clinical policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this clinical policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. The Health Plan retains the right to change, amend or withdraw this clinical policy, and additional clinical policies may be developed and adopted as needed, at any time.

This clinical policy does not constitute medical advice, medical treatment or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible for the medical advice and treatment of members. This clinical policy is not intended to recommend treatment for members. Members should consult with their treating physician in connection with diagnosis and treatment decisions.

Providers referred to in this clinical policy are independent contractors who exercise independent judgment and over whom the Health Plan has no control or right of control. Providers are not agents or employees of the Health Plan.

This clinical policy is the property of the Health Plan. Unauthorized copying, use, and distribution of this clinical policy or any information contained herein are strictly prohibited. Providers, members and their representatives are bound to the terms and conditions expressed herein through the terms of their contracts. Where no such contract exists, providers, members
and their representatives agree to be bound by such terms and conditions by providing services to members and/or submitting claims for payment for such services.
