Clinical Policy: Afamelanotide (Scenesse)
Reference Number: CP.PHAR.444
Effective Date: 03.01.20
Last Review Date: 02.20
Line of Business: Commercial, HIM, Medicaid

See Important Reminder at the end of this policy for important regulatory and legal information.

Description
Afamelanotide (Scenesse®) is a melanocortin 1 receptor (MC1-R) agonist.

FDA Approved Indication(s)
Scenesse is indicated to increase pain free light exposure in adult patients with a history of phototoxic reactions from erythropoietic protoporphyria (EPP).

Policy/Criteria
Provider must submit documentation (such as office chart notes, lab results or other clinical information) supporting that member has met all approval criteria.

It is the policy of health plans affiliated with Centene Corporation® that Scenesse is medically necessary when the following criteria are met:

I. Initial Approval Criteria
   A. Erythropoietic Protoporphyria and X-Linked Protoporphyria (must meet all):
      1. Diagnosis of EPP or X-linked protoporphyria (known as XLP or XLEPP);
      2. Prescribed by or in consultation with a dermatologist;
      3. Age ≥ 18 years;
      4. Evidence of EPP/XLP-associated acute nonblistering cutaneous reactions (e.g., pain, stinging, redness, swelling, blanching) following exposure to sun;
      5. EPP/XLP is confirmed by the following tests (a and b):
         a. Elevated total erythrocyte protoporphyrin (e.g., 300 to 5,000 mcg/dL vs. normal at < 80 mcg/dL);
         b. Erythrocyte fractionation shows ≥ 50% metal-free vs. zinc protoporphyrin (certified laboratories include University of Texas Medical Branch at Galveston - Porphyria Center, and Mayo Medical Laboratories);
      6. Gene sequencing shows an FECH, CLPX, or ALAS2 mutation (genetic testing is available through the Porphyria Center at Mount Sinai Medical Center and Mayo Medical Laboratories);
      7. Sun avoidance and use of sunscreen, protective clothing, and pain medication have proven inadequate in controlling EPP-associated painful skin reactions;
      8. EPP/XLP cutaneous reactions are associated with both of the following (a and b):
         a. Moderate to severe pain as measured on a pain-intensity Likert scale;
         b. Negative impact on quality of life (QOL) as measured by a QOL questionnaire (e.g., Dermatology of Life Quality Index [DLQI], EPP-Quality of Life [QoL]);
      9. Member does not have any of the following conditions:
a. Current Bowen’s disease, basal cell carcinoma, or squamous cell carcinoma;
b. Personal history of melanoma or dysplastic nevus syndrome;
c. Significant EPP/XLP-associated liver disease;

10. Dose does not exceed one 16-mg implant every 2 months.

Approval duration:
Medicaid/HIM – 6 months (medical justification is required for requests beyond 3 implants for seasonal coverage)
Commercial – 6 months or to the member’s renewal date, whichever is longer (medical justification is required for requests beyond 3 implants a year for seasonal coverage)

B. Other diagnoses/indications
1. Refer to the off-label use policy for the relevant line of business if diagnosis is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized): CP.CPA.09 for commercial, HIM.PHAR.21 for health insurance marketplace, and CP.PMN.53 for Medicaid.

II. Continued Therapy
A. Erythropoietic Protoporphyria and X-Linked Protoporphyria (must meet all):
1. Currently receiving medication via Centene benefit or member has previously met initial approval criteria;
2. Member is responding positively to therapy as evidenced by any of the following (a or b):
   a. Improvement in acute nonblistering cutaneous reactions (e.g., pain, stinging, redness, swelling, blanching) following exposure to sun;
   b. Improvement on a pain-intensity Likert scale or QOL questionnaire;
3. Member has received a full skin examination by a dermatologist within the last six months;
4. If request is for a dose increase, new dose does not exceed one 16 mg implant every 2 months.

Approval duration:
Medicaid/HIM – 6 months (medical justification is required for requests beyond 3 implants a year for seasonal coverage)
Commercial – 6 months or to the member’s renewal date, whichever is longer (medical justification is required for requests beyond 3 implants a year for seasonal coverage)

B. Other diagnoses/indications (must meet 1 or 2):
1. Currently receiving medication via Centene benefit and documentation supports positive response to therapy.
   Approval duration: Duration of request or 6 months (whichever is less); or
2. Refer to the off-label use policy for the relevant line of business if diagnosis is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized): CP.CPA.09 for commercial, HIM.PHAR.21 for health insurance marketplace, and CP.PMN.53 for Medicaid.
CLINICAL POLICY
Afamelanotide

III. Diagnoses/Indications for which coverage is NOT authorized:
   A. Non-FDA approved indications, which are not addressed in this policy, unless there is
      sufficient documentation of efficacy and safety according to the off label use policies –
      CP.CPA.09 for commercial, HIM.PHAR.21 for health insurance marketplace, and
      CP.PMN.53 for Medicaid.

IV. Appendices/General Information
   Appendix A: Abbreviation/Acronym Key
   EPP: erythropoietic protoporphyria
   FDA: Food and Drug Administration
   XLP/XLEPP: X-linked protoporphyria/X-linked protoporphria/X-linked erythropoietic
   protoporphria

   Appendix B: Therapeutic Alternatives
   Not applicable

   Appendix C: Contraindications/Boxed Warnings
   None reported

   Appendix D: Manufacturer’s Dosing/Administration Information (Prescribing Information)
   Sceness should be administered by a health care professional. All healthcare professionals
   should be proficient in the subcutaneous implantation procedure and have completed the
   training program provided by Clinuvel prior to administration of the Sceness implant.
   • A single Sceness implant is inserted subcutaneously above the anterior supra-iliac crest
     every 2 months.
   • Use the SFM Implantation Cannula to implant Sceness. Contact Clinuvel, Inc., for other
     implantation devices that have been determined by the manufacturer to be suitable for
     implantation of Sceness.
   • Maintain sun and light protection measures during treatment with Sceness to prevent
     phototoxic reactions related to EPP.

V. Dosage and Administration

| Finalize HIM line of business per June SDC and prior clinical guidance. | 06.04.20 |

**Important Reminder**

This clinical policy has been developed by appropriately experienced and licensed health care professionals based on a review and consideration of currently available generally accepted standards of medical practice; peer-reviewed medical literature; government agency/program approval status; evidence-based guidelines and positions of leading national health professional organizations; views of physicians practicing in relevant clinical areas affected by this clinical policy; and other available clinical information. The Health Plan makes no representations and accepts no liability with respect to the content of any external information used or relied upon in developing this clinical policy. This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved. “Health Plan” means a health plan that has adopted this clinical policy and that is operated or administered, in whole or in part, by Centene Management Company, LLC, or any of such health plan’s affiliates, as applicable.

The purpose of this clinical policy is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage decisions and the administration of benefits are subject to all terms, conditions, exclusions and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable Health Plan-level administrative policies and procedures.

This clinical policy is effective as of the date determined by the Health Plan. The date of posting may not be the effective date of this clinical policy. This clinical policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this clinical policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. The Health Plan retains the right to change, amend or withdraw this clinical policy, and additional clinical policies may be developed and adopted as needed, at any time.

This clinical policy does not constitute medical advice, medical treatment or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible for the medical advice and treatment of members. This clinical policy is not intended to recommend treatment for members. Members should consult with their treating physician in connection with diagnosis and treatment decisions.
Providers referred to in this clinical policy are independent contractors who exercise independent judgment and over whom the Health Plan has no control or right of control. Providers are not agents or employees of the Health Plan.

This clinical policy is the property of the Health Plan. Unauthorized copying, use, and distribution of this clinical policy or any information contained herein are strictly prohibited. Providers, members and their representatives are bound to the terms and conditions expressed herein through the terms of their contracts. Where no such contract exists, providers, members and their representatives agree to be bound by such terms and conditions by providing services to members and/or submitting claims for payment for such services.

Note: For Medicaid members, when state Medicaid coverage provisions conflict with the coverage provisions in this clinical policy, state Medicaid coverage provisions take precedence. Please refer to the state Medicaid manual for any coverage provisions pertaining to this clinical policy.
