Clinical Policy: Itraconazole (Sporanox, Onmel)
Reference Number: CP.PMN.124
Effective Date: 11.01.06
Last Review Date: 05.19
Line of Business: Commercial, HIM*, Medicaid

See Important Reminder at the end of this policy for important regulatory and legal information.

Description
Itraconazole (Sporanox®, Onmel®) is an azole antifungal agent.

*For Health Insurance Marketplace (HIM), if request is through pharmacy benefit, Onmel and brand Sporanox capsule are non-formulary and cannot be approved using these criteria; refer to the formulary exception policy, HIM.PA.103.

FDA Approved Indication(s)
Onmel is indicated for the treatment of onychomycosis of the toenail caused by *Trichophyton rubrum* or *T. mentagrophytes*.

Sporanox capsules are indicated in:
- Immunocompromised and non-immunocompromised patients for the treatment of:
  - Blastomycosis, pulmonary and extrapulmonary
  - Histoplasmosis, including chronic cavitary pulmonary disease and disseminated, nonmeningeal histoplasmosis
  - Aspergillosis, pulmonary and extrapulmonary, in patients who are intolerant of or who are refractory to amphotericin B therapy
- Non-immunocompromised patients for the treatment of:
  - Onychomycosis of the toenail, with or without fingernail involvement, due to dermatophytes (tinea unguium)
  - Onychomycosis of the fingernail due to dermatophytes (tinea unguium)

Sporanox oral solution is indicated for the treatment of oropharyngeal and esophageal candidiasis.

Policy/Criteria
Provider must submit documentation (such as office chart notes, lab results or other clinical information) supporting that member has met all approval criteria.

It is the policy of health plans affiliated with Centene Corporation® that Onmel and Sporanox are medically necessary when the following criteria are met:

I. Initial Approval Criteria
   A. Onychomycosis (must meet all):
      1. Diagnosis of onychomycosis;
      2. Request is for Sporanox capsules or Onmel tablets (toenails only);
      3. Member meets one of the following (a or b):
a. For fingernail disease: Failure of a 6-week trial of oral terbinafine at 250 mg/day, unless contraindicated or clinically significant adverse effects are experienced;
b. For toenail disease: Failure of a 12-week trial of oral terbinafine at 250 mg/day, unless contraindicated or clinically significant adverse effects are experienced;

4. Dose does not exceed (a or b):
   a. Sporanox capsules: 400 mg (4 capsules) per day;
   b. Onmel tablets: 200 mg (1 tablet) per day.

**Approval duration:**
Medicaid/Commercial – Fingernail disease: 2 months; toenail disease: 3 months
HIM – Fingernail disease: 2 months; toenail disease: 3 months for generic Sporanox
(Refer to HIM.PA.103 for Onmel and brand Sporanox)

**B. Oropharyngeal Candidiasis (must meet all):**
1. Diagnosis of oropharyngeal candidiasis;
2. Request is for Sporanox oral solution;
3. Failure of a 14-day trial of nystatin suspension or clotrimazole troches/lozenges, unless contraindicated or clinically significant adverse effects are experienced;
4. Failure of a 14-day trial of fluconazole, unless contraindicated or clinically significant adverse effects are experienced;
5. Dose does not exceed 200 mg (20 mL) per day.

**Approval duration: 4 weeks**

**C. Esophageal Candidiasis (must meet all):**
1. Diagnosis of esophageal candidiasis;
2. Request is for Sporanox oral solution;
3. Failure of a 21-day trial of fluconazole at up to maximally indicated doses, unless contraindicated or clinically significant adverse effects are experienced;
4. Dose does not exceed 200 mg (20 mL) per day.

**Approval duration: 4 weeks**

**D. Aspergillosis (must meet all):**
1. Diagnosis of aspergillosis;
2. Request is for Sporanox capsules;
3. Failure of a 3-month trial of voriconazole at up to maximally indicated doses, unless contraindicated or clinically significant adverse effects are experienced;
   *Prior authorization may be required for voriconazole*
4. Dose does not exceed 400 mg (4 capsules) per day.

**Approval duration:**
Medicaid/Commercial – 3 months
HIM – 3 months for generic Sporanox (Refer to HIM.PA.103 for brand Sporanox)

**E. Blastomycosis or Histoplasmosis (must meet all):**
1. Diagnosis of blastomycosis or histoplasmosis;
2. Request is for Sporanox capsules;
3. Dose does not exceed 400 mg (4 capsules) per day.

**Approval duration:**
Medicaid/Commercial – Blastomycosis: 6 months; Histoplasmosis: 6 weeks
HIM – Blastomycosis: 6 months; Histoplasmosis: 6 weeks for generic Sporanox (Refer to HIM.PA.103 for brand Sporanox)

F. Hematologic Malignancy (off-label) (must meet all):
1. Diagnosis of hematologic malignancy;
2. Request is for Sporanox;
3. Member meets one of the following (a or b):
   a. Request is for prophylaxis of aspergillosis;
   b. Request is for prophylaxis of candidiasis, and member has failed fluconazole at up to maximally indicated doses unless contraindicated or clinically significant adverse effects are experienced;
4. Dose does not exceed (a or b):
   a. Capsules: 400 mg (4 capsules) per day;
   b. Oral solution: 200 mg (20 mL) per day.

Approval duration:
Medicaid/Commercial – 3 months
HIM – 3 months for oral solution and generic capsules (Refer to HIM.PA.103 for brand capsules)

G. Other diagnoses/indications
1. Refer to the off-label use policy for the relevant line of business if diagnosis is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized): CP.CPA.09 for commercial, HIM.PHAR.21 for health insurance marketplace, and CP.PMN.53 for Medicaid.

II. Continued Therapy
A. Onychomycosis (must meet all):
1. Currently receiving medication via Centene benefit or member has previously met initial approval criteria;
2. Member is responding positively to therapy;
3. Member has not received more than 90 days of treatment;
4. If request is for a dose increase, new dose does not exceed (a or b):
   a. Sporanox capsules: 400 mg (4 capsules) per day;
   b. Onmel tablets: 200 mg (1 tablet) per day.

Approval duration:
Medicaid/Commercial - Fingernail disease: up to 2 months total; toenail disease: up to 3 months total
HIM - Fingernail disease: up to 2 months total; toenail disease: up to 3 months total for generic Sporanox (Refer to HIM.PA.103 for Onmel and brand Sporanox)

B. Oropharyngeal/Esophageal Candidiasis (must meet all):
1. Currently receiving medication via Centene benefit or member has previously met initial approval criteria;
2. Member is responding positively to therapy;
3. Request is for Sporanox oral solution;
4. If request is for a dose increase, new dose does not exceed 200 mg (20 mL) per day. 
   **Approval duration:** 2 weeks

C. **Blastomycosis, Histoplasmosis, or Aspergillosis** (must meet all):
   1. Currently receiving medication via Centene benefit or member has previously met initial approval criteria;
   2. Member is responding positively to therapy;
   3. Request is for Sporanox capsules;
   4. If request is for a dose increase, new dose does not exceed 400 mg per day (4 capsules) per day.
   **Approval duration:**
   - Medicaid/Commercial – Blastomycosis: 6 months; Histoplasmosis: 6 weeks; Aspergillosis: 3 months
   - HIM – Blastomycosis: 6 months; Histoplasmosis: 6 weeks; Aspergillosis: 3 months for generic Sporanox *(Refer to HIM.PA.103 for brand Sporanox)*

D. **Hematologic Malignancy (off-label)** (must meet all):
   1. Currently receiving medication via Centene benefit or member has previously met initial approval criteria;
   2. Request for Sporanox;
   3. Member is responding positively to therapy;
   4. If request is for a dose increase, new dose does not exceed (a or b):
      a. Sporanox capsules: 400 mg (4 capsules) per day;
      b. Sporanox oral solution: 200 mg (20 mL) per day.
   **Approval duration:**
   - Medicaid/Commercial – 6 months
   - HIM – 6 months for oral solution and generic capsules *(Refer to HIM.PA.103 for brand capsules)*

E. **Other diagnoses/indications** (must meet 1 or 2):
   1. Currently receiving medication via Centene benefit and documentation supports positive response to therapy.
      **Approval duration:** Duration of request or 6 months (whichever is less); or
   2. Refer to the off-label use policy for the relevant line of business if diagnosis is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized): CP.CPA.09 for commercial, HIM.PHAR.21 for health insurance marketplace, and CP.PMN.53 for Medicaid.

III. **Diagnoses/Indications for which coverage is NOT authorized:**
   A. Non-FDA approved indications, which are not addressed in this policy, unless there is sufficient documentation of efficacy and safety according to the off label use policies – CP.CPA.09 for commercial, HIM.PHAR.21 for health insurance marketplace, and CP.PMN.53 for Medicaid or evidence of coverage documents.
IV. Appendices/General Information

Appendix A: Abbreviation/Acronym Key
FDA: Food and Drug Administration

Appendix B: Therapeutic Alternatives
This table provides a listing of preferred alternative therapy recommended in the approval criteria. The drugs listed here may not be a formulary agent for all relevant lines of business and may require prior authorization.

Therapeutic alternatives are listed as Brand name® (generic) when the drug is available by brand name only and generic (Brand name®) when the drug is available by both brand and generic.

Appendix C: Contraindications/Boxed Warnings

- Contraindication(s):
  - Itraconazole should not be administered for the treatment of onychomycosis in patients with evidence of ventricular dysfunction such as congestive heart failure (CHF) or a history of CHF.
  - Concomitant coadministration of itraconazole with the following drugs: methadone, dofetilide, quinidine, ergot alkaloids (such as dihydroergotamine, ergometrine (ergonovine), ergotamine, methylergometrine (methylergonovine)), felodipine, pimozide, oral midazolam, triazolam, nisoldipine, cisapride, lovastatin, simvastatin.
  - Additional product-specific drug-drug interactions include:
    - Onmel: levacetylmethadol (levomethadyl)
    - Sporanox (capsules and oral solution): disopyramide, dronedarone, irinotecan, luradione, ivabradine, ranolazine, eplerenone, ticagrelor and, in subjects with varying degrees of renal or hepatic impairment, colchicine, fesoterodine, and solifenacin.
    - Sporanox capsules: telithromycin
    - Sporanox oral solution: isavuconazole, naloxegol, lomitapide, avanafil
  - Pregnancy, or women contemplating pregnancy
  - Hypersensitivity to itraconazole
• Boxed warning(s):
  o CHF or history of CHF (see contraindications)
  o Drug-drug interactions (see contraindications)

**Important Reminder**

This clinical policy has been developed by appropriately experienced and licensed health care professionals based on a review and consideration of currently available generally accepted standards of medical practice; peer-reviewed medical literature; government agency/program approval status; evidence-based guidelines and positions of leading national health professional organizations; views of physicians practicing in relevant clinical areas affected by this clinical policy; and other available clinical information. The Health Plan makes no representations and accepts no liability with respect to the content of any external information used or relied upon in developing this clinical policy. This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved. “Health Plan” means a health plan that has adopted this clinical policy and that is operated or administered, in whole or in part, by Centene Management Company, LLC, or any of such health plan’s affiliates, as applicable.

The purpose of this clinical policy is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage decisions and the administration of benefits are subject to all terms, conditions, exclusions and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable Health Plan-level administrative policies and procedures.

This clinical policy is effective as of the date determined by the Health Plan. The date of posting may not be the effective date of this clinical policy. This clinical policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this clinical policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. The Health Plan retains the right to change, amend or withdraw this clinical policy, and additional clinical policies may be developed and adopted as needed, at any time.

This clinical policy does not constitute medical advice, medical treatment or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible for the medical advice and treatment of members. This clinical policy is not intended to recommend treatment for members. Members should consult with their treating physician in connection with diagnosis and treatment decisions.

Providers referred to in this clinical policy are independent contractors who exercise independent judgment and over whom the Health Plan has no control or right of control. Providers are not agents or employees of the Health Plan.

This clinical policy is the property of the Health Plan. Unauthorized copying, use, and distribution of this clinical policy or any information contained herein are strictly prohibited. Providers, members and their representatives are bound to the terms and conditions expressed herein through the terms of their contracts. Where no such contract exists, providers, members and their representatives agree to be bound by such terms and conditions by providing services to members and/or submitting claims for payment for such services.

Note:
For Medicaid members, when state Medicaid coverage provisions conflict with the coverage provisions in this clinical policy, state Medicaid coverage provisions take precedence. Please refer to the state Medicaid manual for any coverage provisions pertaining to this clinical policy.

For Health Insurance Marketplace members, when applicable, this policy applies only when the prescribed agent is on your health plan approved formulary. Request for non-formulary drugs must be reviewed using the formulary exception policy: HIM.PA.103.
