Clinical Policy: Colonoscopy Preparation Products

Description
Colonoscopy preparation products contain a combination of osmotic laxatives, stimulant laxatives, and electrolytes used for cleansing of the colon to allow for imaging during a colonoscopy.

FDA Approved Indication(s)
MoviPrep® and OsmoPrep® are indicated for cleansing of the colon as a preparation for colonoscopy in adults

Clenpiq® and Prepopik® are indicated for cleansing of the colon as a preparation for colonoscopy in adults and pediatric patients ages 9 years and older

Policy/Criteria
Provider must submit documentation (such as office chart notes, lab results or other clinical information) supporting that member has met all approval criteria.

It is the policy of health plans affiliated with Centene Corporation® that Clenpiq, MoviPrep, OsmoPrep, and Prepopik are medically necessary when the following criteria are met:

I. Initial Approval Criteria
   A. Colonoscopy Preparation (must meet all):
      1. For patients 12 years and older, failure of Suprep® unless contraindicated or clinically significant adverse effects are experienced.
      Approval duration: 4 weeks (one colonoscopy preparation)

   B. Other diagnoses/indications
      1. Refer to the off-label use policy for the relevant line of business if diagnosis is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized): HIM.PHAR.21 for health insurance marketplace.

II. Continued Therapy
   A. Colonoscopy Preparation (must meet all):
      1. Currently receiving medication via Centene benefit or member has previously met initial approval criteria.
      Approval duration: 4 weeks (one colonoscopy preparation)
B. Other diagnoses/indications (must meet 1 or 2):
   1. Currently receiving medication via Centene benefit and documentation supports positive response to therapy.
      Approval duration: Duration of request or 12 months (whichever is less); or
   2. Refer to the off-label use policy for the relevant line of business if diagnosis is NOT specifically listed under section III (Diagnoses/Indications for which coverage is NOT authorized): HIM.PHAR.21 for health insurance marketplace.

III. Diagnoses/Indications for which coverage is NOT authorized:
   A. Non-FDA approved indications, which are not addressed in this policy, unless there is sufficient documentation of efficacy and safety according to the off label use policy – HIM.PHAR.21 for health insurance marketplace.

IV. Appendices/General Information

Appendix A: Abbreviation/Acronym Key
FDA: Food and Drug Administration

Appendix B: Therapeutic Alternatives
This table provides a listing of preferred alternative therapy recommended in the approval criteria. The drugs listed here may not be a formulary agent for all relevant lines of business and may require prior authorization.

<table>
<thead>
<tr>
<th>Drug Name</th>
<th>Dosing Regimen</th>
<th>Dose Limit/Maximum Dose</th>
</tr>
</thead>
<tbody>
<tr>
<td>Suprep® (magnesium sulfate, potassium sulfate, sodium sulfate)</td>
<td>Split-dose regimen: Total volume of liquid consumed over the course of treatment: 2880 mL (96 oz)</td>
<td>Not applicable</td>
</tr>
<tr>
<td></td>
<td>Evening before colonoscopy: Drink the entire contents of 1 bottle, diluted to a final volume of 480 mL (16 oz). Then drink 2 additional containers of water each (filled to the 16-ounce line) over the next hour, for an additional volume of 960 mL (32 oz).</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Morning of the colonoscopy (10-12 hours after the evening dose): Repeat entire process with the second bottle: Drink entire contents of second bottle diluted to a final volume of 480 mL (16 oz); then drink 2 additional containers of water (each filled to the 16-ounce line) over the next hour, for an additional volume of 960 mL (32 oz). Complete at least 2 hours before the procedure.</td>
<td></td>
</tr>
</tbody>
</table>

Therapeutic alternatives are listed as Brand name® (generic) when the drug is available by brand name only and generic (Brand name®) when the drug is available by both brand and generic.

Appendix C: Contraindications/Boxed Warnings
- Contraindication(s):
CLINICAL POLICY
Colonoscopy Preparation Products

- All colonoscopy prep products: gastrointestinal obstruction, ileus (except OsmoPrep), or gastric retention (except OsmoPrep); bowel perforation; toxic colitis or toxic megacolon; hypersensitivity
- Prepopik: severely reduced renal function (creatinine clearance less than 30 mL/min)
- OsmoPrep: biopsy-proven acute phosphate nephropathy, gastric bypass or stapling surgery
- Boxed warning(s): OsmoPrep – acute phosphate nephropathy

V. Dosage and Administration

<table>
<thead>
<tr>
<th>Drug Name</th>

Important Reminder
This clinical policy has been developed by appropriately experienced and licensed health care professionals based on a review and consideration of currently available generally accepted standards of medical practice; peer-reviewed medical literature; government agency/program approval status; evidence-based guidelines and positions of leading national health professional
Colonoscopy Preparation Products

The purpose of this clinical policy is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage decisions and the administration of benefits are subject to all terms, conditions, exclusions and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable Health Plan-level administrative policies and procedures.

This clinical policy is effective as of the date determined by the Health Plan. The date of posting may not be the effective date of this clinical policy. This clinical policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this clinical policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. The Health Plan retains the right to change, amend or withdraw this clinical policy, and additional clinical policies may be developed and adopted as needed, at any time.

This clinical policy does not constitute medical advice, medical treatment or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible for the medical advice and treatment of members. This clinical policy is not intended to recommend treatment for members. Members should consult with their treating physician in connection with diagnosis and treatment decisions.

Providers referred to in this clinical policy are independent contractors who exercise independent judgment and over whom the Health Plan has no control or right of control. Providers are not agents or employees of the Health Plan.

This clinical policy is the property of the Health Plan. Unauthorized copying, use, and distribution of this clinical policy or any information contained herein are strictly prohibited. Providers, members and their representatives are bound to the terms and conditions expressed herein through the terms of their contracts. Where no such contract exists, providers, members and their representatives agree to be bound by such terms and conditions by providing services to members and/or submitting claims for payment for such services.
